

OBJECTIVE

Like most people, the main objective in my life, as well as my career is to be successful. I chose the web and computer fields because they offer me the challenge I desire in a subject matter that I love. I thoroughly enjoy what I do, and get excited about finding new ways of getting people interested in technology. My experience, education, and skills have given me a deep understanding of the IT industry and the many facets it employs. I enjoy a challenge and am always ready to put my nose to the grindstone. I hope one day to be able to look back on my life and know that I made a difference in an organization and the work that I have done was beneficial and appreciated.

EXPERIENCE

My unique experience has given me specific skills in various software and hardware configurations. Here is a short list of just some of those systems. More available upon request.

SERVERS:

- Dell Power Edge Servers
- HP ProLiant Servers
- HP Entirety Servers
- IBM Server X
- Cisco Servers
- Exchange Server
- SQL Server
- SuperMicro Servers
- Apple XServe Servers

OPERATING SYSTEMS:

- Linux
- Windows
- OpenVMS
- NonStop OS
- Tru64 UNIX
- NetWare
- OpenServer
